EHC GLOBAL

D-FLECTOR™ Safety Brush

EHC's D-Flector brush has been designed to stringent quality and safety specifications and is suited to a wide range of escalators and moving walks, while meeting global escalator safety code requirements.

FEATURES & BENEFITS

- D-Flector meets escalator safety code requirements around the world including A17/B44 and EN115.
- Small profile ensures a sleek, unobtrusive appearance.
- Flexible Brush Spine allows for simple installation and escalator maintenance.
- Installs in half the time of other deflector devices, saving you time and money.
- Light weight for reduced shipping and handling costs.
